

Please do not disturb the "Do not call" telemarketers law. We have peace and quiet at home. Before the law was passed, we barely were able to eat our dinner. The phone would ring many times from 5 pm to about 7:30 pm. with these telemarketers, always terribly insistant, trying to sell something. I know many times I just was rude and hung up while they were pushing their product. Don't you dare mess with our law.
